Moderator: Alexander Pastuszak
Panel: Colin Teo, Abdul Traish, Jean-Paul Deslypere
- 09:45** **Should testosterone therapy be used for general health benefits (bone, glycemic control, vitality) in asymptomatic men with low T values**
Moderator: Peter Lim
Panel: Sandeep Dhindsa, Gary Wittert, Martin Miner
- 10:25** **Break**
- 10:40** **Ask the Professors**
Moderator: Jean-Paul Deslypere
Panel: Ernani Rhoden, Ronald Swerdloff, Hugh Jones, Paresh Dandonna, Glenn Cunningham, Abraham Morgentaler
- 11:20** **Keynote: Lessons from the past, a view to the future**
Moderator: Abdul Traish
Speaker: Abraham Morgentaler
- 12:00** **Meeting adjourns**

Specializing in Compounded Urology Products

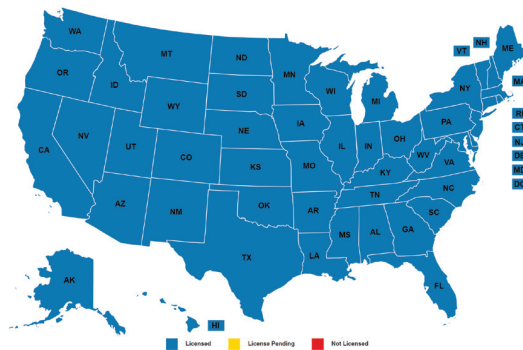

CUSTOMIZED TO YOUR NEEDS

Empower Pharmacy is one of the most technologically advanced FDA 503B outsourcing facilities in the world as it was built from the ground up to house equipment, environmental controls, and clean rooms to meet the latest USP, cGMP and FDA regulations. We only utilize pharmaceutical grade chemicals and raw materials from FDA-registered suppliers, and aseptically add them sterile parenteral containers. The entire compounding process is overseen by authorized and licensed pharmacists and pharmaceutical engineers.

LICENSED NATIONALLY

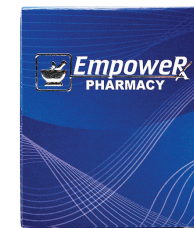

Empower Pharmacy is licensed in every state and follows all state and federal safety guidelines. Patients anywhere in the US can fulfill their prescriptions using our online system. We deliver ground or overnight, six days a week, so your patients can be confident their medications will be delivered when needed. Our staff includes pharmacists, certified pharmacy technicians, and pharmaceutical engineers. All of these employees have had extensive training and years of experience in the area of sterile compounding, assuring our patients the highest level of quality and safety.
